Summary

Full Stack Developer experienced in designing and developing web applications using **Node.js**, **Express.js**, **Laravel**, **React**, **Next.js**, **TypeScript**, **Prisma**, and **MySQL**. Skilled in building **REST APIs**, integrating third-party services, developing automation systems, and deploying applications on **Linux** servers using **Docker**. Committed to delivering efficient, maintainable, and scalable solutions through best software development practices.

Experience

Full Stack Web Developer

Remote

Freelance

2025 – present

- Engineered and deployed custom **responsive web applications** for multiple clients using modern full-stack frameworks (**Next.js**, **Express.js**, **Laravel**).
- Led technical discovery sessions with clients to translate business requirements into functional architecture and project scope.
- Implemented end-to-end development practices, optimizing performance, security, and scalability across **Linux**-based server environments.

Intern

Palembang, Indonesia

Radio Republik Indonesia

Feb 2024 – May 2024

- Maintained **digital broadcasting infrastructure** and IT operation systems to ensure uninterrupted media production.
- Resolved technical hardware and network troubleshooting tasks to minimize system downtime during live broadcasts.

Projects

JadibotWA

- WhatsApp Automation Platform — jadibotwa.xyz
- Architected a code-free WhatsApp automation platform featuring live bot logs via **WebSockets** for real-time data, status monitoring, and scalable **REST APIs**.
- Built high-performance backend microservices using **Go (Fiber)**, **PostgreSQL**, and **WhatsMeow** for multi-device session management.
- Developed interactive frontend with **Next.js**, **TypeScript**, and **Tailwind CSS**, integrating AI-powered chat workflows and automated media processing.

RyHar Panel

- Pterodactyl Hosting Management Platform — ryhar-panel.my.id
- Built a modern landing page and management platform for a Pterodactyl hosting service, focused on fast, responsive, and conversion-driven user experience.
- Developed the frontend using **Next.js**, **React**, **TypeScript**, and **Tailwind CSS** with SEO and performance optimization.
- Engineered the backend using **Express.js** and **TypeScript** with **Prisma ORM** and **MySQL** for robust database management.
- Integrated a **payment gateway** for automated transaction processing and streamlined purchasing workflow.

- Implemented secure authentication, **RESTful API** architecture, and automated order processing system.

RyHar Portfolio

- Personal Portfolio Website — ryhar.my.id
- Developed a personal portfolio website with a modern, responsive design focused on user experience to showcase profile, skills, and completed projects.
- Built the interface using **Next.js** and **Tailwind CSS**, implementing interactive animations with **Framer Motion** to enhance user experience.

Education

Universitas Multi Data Palembang

2024 – present

BS in Information Systems

- GPA: 3.67

SMKN 5 Palembang

2021 – 2024

Vocational High School in Multimedia

Organizations

Litbang IT

2026 – present

HIMSI (Information Systems Student Association)

- Served as an operator for the CTRL-Z event, ensuring smooth technical execution.
- Developed a web-based application for the organization using **React**.

Photography, Videography & Web Developer

2024 – present

MDPTV

- Operated professional camera equipment for campus broadcasting and media production.
- Documented various campus events and activities to provide high-quality visual coverage.
- Developed a custom web platform for MDPTV using **React.js** for the frontend, alongside **Bun** and **Prisma ORM** for the backend.

Member

2024 – 2026

Procom (Programming Community)

- Completed Coaching program covering **ReactJS** and **RESTful APIs**, culminating in a **Next.js** web application as the final project.

Skills

Frontend: HTML5, CSS3, **React.js**, **Next.js**, **Tailwind CSS**, Framer Motion

Backend: **Node.js**, **Express.js**, **Go (Golang)**, **Fiber**, **Laravel**

Databases & ORM: **MySQL**, **PostgreSQL**, **MongoDB**, **Prisma ORM**

Tools & Infrastructure: **Git**, **GitHub**, **Docker**, **Linux**, **Nginx**, **Postman**

Soft Skills: **Problem Solving**, **Analytical Thinking**, **Team Collaboration**, **Adaptability**
